

WALDO NEIGHBORHOOD UNDER CONSTRUCTION

Come find out what matters most to Waldo residents.

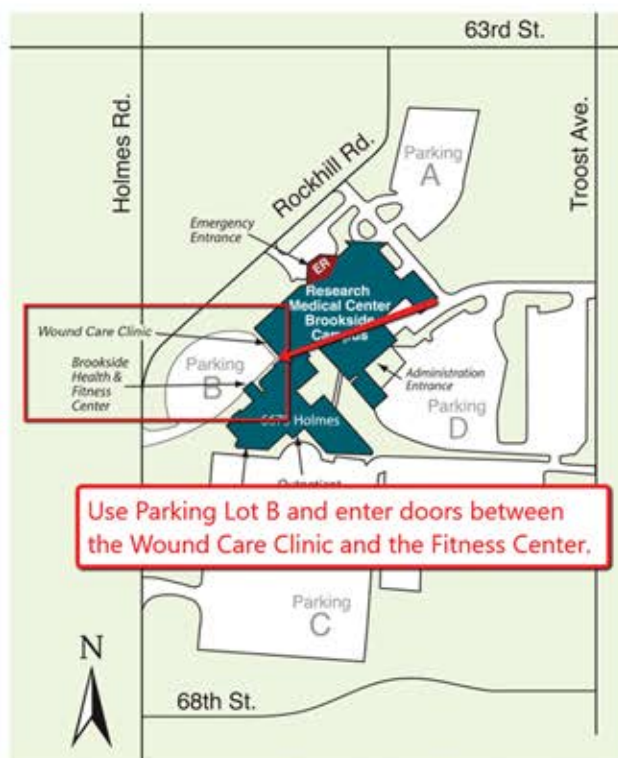

All through the summer, we held a series of focus meetings at various locations throughout Waldo and created a similar online survey. We collected information from over 240 residents and found out what they value most in the neighborhood and from a neighborhood organization. You are invited to see our results and to find out how this feedback is being used to guide us in updating our official organization as well as provide benefits that you want most from your neighborhood community.
